Louis:

Gentlemen: In my annual message of September 15, 1902. I called your attention to the necessity for the enlargement and reconstruction of our nublic buildings and sewers.

At that time it was thought that the amendment of section 12, article X, of the Constitution, which was voted upon at the last November election and duly carried, would enable the city, through a vote of the people, to issue honds, the proceeds of which would bring about the improvement of the public buildings and sewers aforesaid.

LOST GIRL RETURNED HOME. Annie Holt Searched Two Days

Annie Holt, a 14-year-old girl, who arrived in St. Louis from Germany Monday, was lost from the signt of her relatives for two days, during which time the police of the entire city were exarching for her. She was restored last night to the custody of her uncle, John Geonaler, who lives in Broadway, near Park avenue.

The policeman who returned the girl to ber home failed to make a report of the matter. According to the officer in charge of the Third District station, the police man went home without revealing the name or address of the girl's uncle, and, although the station officials knew that the girl had been reported missing, there was no record the house to which she had been found, or of the house to which she had been found, or of the house to which she had been taken.

Miss Holt was sent out Thursday morning early by her uncle to the address of a lady living in the southwestern part of the will begin Monday.

BANK COMPETITION IN COUNTY. New Institutions Are Entering

Field Against Old Rivals. Field Against Old Rivals.

War for the control of St. Louis County financial business is being waged in Clayton between the directory of the St. Louis County Bank and officers of the Choumeau-Dosenbach Title Abstracting Company.

Up to two years ago the bank had practically a monopoly of the county's financial business, and the Choumeau-Dosenbach Company occupied the same position in the title-abstracting field. Since then the rapidly increasing development of the county has attracted outside business and opposition has sprung from both sources. Instead of one bank, there are now five in Wellston, Clayton, Webster Groves, Kirkwood and Manchester, and other title companies have been started.

It is now stated almost positively that there will be at least one more bank and one more title company in Clayton. The Choumeau-Dosenbach Company is promoting the new bank, and will enlist sufficient capital to incorporate it at a meeting to be held next Saturday.

In retallation the controlling factors in the St. Louis County Bank threaten to start a new title-abstracting company. Several informal meetings have already been held, and the bank directors say they are certain they can realize a handsome profit with the new enterprise.

that the situation is extremely grave and one not to be considered lightly. He declared that the miners of Illinois cannot afford to strike at this time, for the people would be against them. He said that he could not make the statement that some of the demands of the miners were out of reason, but asserted that inasmuch as the operators were willing to advance them in accordance with the Indianapolis agreement, the people would turn them down if they struck now.

The points of difference are the scale of wages to be paid in the thin-vein fields of Northern Illinois and in Williamson County and the eighth, ninth, sixteenth and twenty-first chauses of the agreement. The scale of wages in all the other districts and all of the clauses except these four has been decided upon.

Diversity of opinion exists as to whether the Illinois miners will decide to strike on account of the unsettled scale at these two points and because of the difference over the four clauses of the difference over the four clauses of the difference over the four clauses of the difference over the scale in Williamson County. The miners and operators for a number of years over the scale in Williamson County. The miners of that county assert the rate there is 3 cents lower than an equitable scale in comparison with adjoining counties. They want an increase of 9 cents a ton and the miners in the thin-vein fields of the north want an advance of 19 cents.

LAY UNCONSCIOUS IN STREET.

Thomas Donahue Found With Mysterious Wound on Head.

Thomas F. Donahue, a plumber living at No. 3208 Finney avenue, was found unconscious in the street in front of No. 4208 Easton avenue at 11 o'clock last might with a large wound on the back of his head. The police have not learned how he came by the wound, but believe that he fell and siruck his head against the sharp edge of the curbing near which he was lying.

Patrolman Joseph Reei of the Tenth District, who found Donohue, says his attention was called to the man by Samuel Kohn of No. 1409 Pendleton avenue. Patrolman Reel says Donahue was too far from the street car tracks to have been struck by a car, and that there were no tracks in the mudcoated street to indicate that he had been assaulted by a robber.

Donahue remained unconscious until a late hour, but the City Hospital physicians do not think the wound will result fatally. Mysterious Wound on Head.

Mr. Houston assisted in the construction of the Courthouse and was one of the few survivors of the Gasconade bridge railroad disaster many years ago. His life work was that of a contractor and builder and he designed many of the large buildings which adorn the downtown section of the city.

Two children survive Mr. Houston—Albert Houston of San Francisco and Mrs. Ella Williams of Shrewsbury Park. The funeral will take place at Foley, Lincoin County, Mo., but the time will not be fixed until the time of the son's arrival from California is known.

Mrs. Houston, who is in a very precarious condition of health, was told last night of her husband's death, and the shock fell heavily upon her.

The Democrats of the Twentieth Ward will meet to-night in Phoenix Hall, Jefferson and Cass avenues, to discuss candidates for the regular Democratic delegation. The meeting, which will commence at 3 o'clock will be addressed by several speakers.
